

FEMALE UROLOGY

O F N A S H V I L L E

Abel · Allen · Scarpero

To Female Urology of Nashville Patients,

Amidst the ongoing COVID-19 pandemic our hearts and thoughts go out to the people who have been affected and we greatly appreciate everyone on the front line, working to contain the virus.

First and foremost, the health and safety of our patients, staff and community is our top priority. With the recent developments on the spread of the Coronavirus (COVID-19), your team at Female Urology of Nashville continues to monitor the CDC recommendations and make adjustments to our normal business operations in parallel to their guidelines. As of March 23, 2020, we are live with telehealth appointments in place of routine office visits with some limited office procedures and other testing appointments available to pre-screened patients. Please call our office for further information on these changes and when we will resume normal operations.

We remain committed to providing the quality care you expect and will communicate any changes to our normal protocols when needed. Please continue to check our website for any additional updates. We appreciate your continued support and wish you and your families the best health during this time.

Sincerely,
Drs. Abel, Allen, & Scarpero
